### Notice of Appeal

Dear Mr. To,

I, George Guang Yang, applicant and independent inventor, filed my patent application, INTEGRATED DATABASE DATA EDITING SYSTEM, in your office on 10/02/2000 (#09/677,493). My patent application Claims 1-7 were finally rejected by your "Office Action" dated May 27, 2006 and mailed to me on June 6, 2006. I sent you a reply letter on July 27, 2006 to oppose your rejection of my Claims 1-7, but my Claims 1-7 were still not allowed by your "Advisory Action Before the Filing of an Appeal Brief" mailed to me on August 18, 2006. I am filing this "Notice of Appeal" to the Board of Patent Appeals and Interferences to appeal your final rejection of my Claims 1-7 pursuant to 37 CFR § 41.31(a)(1). Attached is the \$250.00 check of appeal fees for filing this Notice of Appeal under 37 CFR § 41.20(b)(1).

My patent application is patentable pursuant to 35 U.S.C. § 101, and that your "Office Action" rejected my patent application under 35 U.S.C. § 103(a) & § 112 does not have any factual merit or legal basis and should be reversed.

I sent the latest Clean Version of Amendment of my patent application to you on 09/27/2004. I made a minor word amendment to my Claim 1, and sent the response letter and Claims 1-7 to you on 07/27/2006 to answer your "Office Action" dated 05/27/2006.

I have also sent the response letters to your "Office Actions" on 03/06/2006, 03/15/2005, 09/27/2004, 02/19/2004, 01/05/2004, 05/29/2003, 02/27/2003 and 08/12/2002, in responding to your office actions mailed to me on 02/14/2006, 03/04/2005, 02/12/2004, 08/12/2003, 05/21/2003, 02/13/2003 and 08/01/2002. We also have had several telephone conversations and exchanged emails many times regarding my patent application.

My patent is very significant in both technology and economy aspects. I request the Board of Patent Appeals and Interferences to reverse the final rejection of my patent Claims 1-7 and approve my patent application as soon as possible.

Sincerely,

A handwritten signature in cursive script that reads "George G. Yang". The signature is written in black ink and is positioned above the printed name.

George Guang Yang

Independent Inventor/Appellant
